ABOUT TUBS & TILES

Tubs & Tiles is Ireland's leading supplier of tiles and everything you need for your bathroom. Our tiles are sourced exclusively from trusted manufacturers in Spain and Italy so you can be assured of only the best quality of tiles that will last a lifetime. We also showcase a wide range of design led international bathroom brands to suit any style or budget.

In addition to this extensive range of products our experienced showroom team combine technical knowledge with design skills to help bring your ideas to life. Our design team offer 3D bathroom design, professional interior design consultations and technical expertise for projects in the commercial sector.

In this brochure we are giving you a taste of the wonderful tiles and bathroom ware which are available from Tubs & Tiles. Many of these collections are on display in our showrooms around the country and some are tailored towards commercial projects and are available through our dedicated commercial team. Our extensive network of trusted suppliers and leading brands ensure our specialist team can help source the right products for any project.

These inspirational images and creative design collections are complemented by a complete range of commercial project essentials which will be necessary to complete any project.

TUBS & TILES COMMERCIAL

The Tubs & Tiles commercial team works with architects and developers to propose solutions and specify tiles and sanitary ware for a variety of public, commercial and multi residential developments.

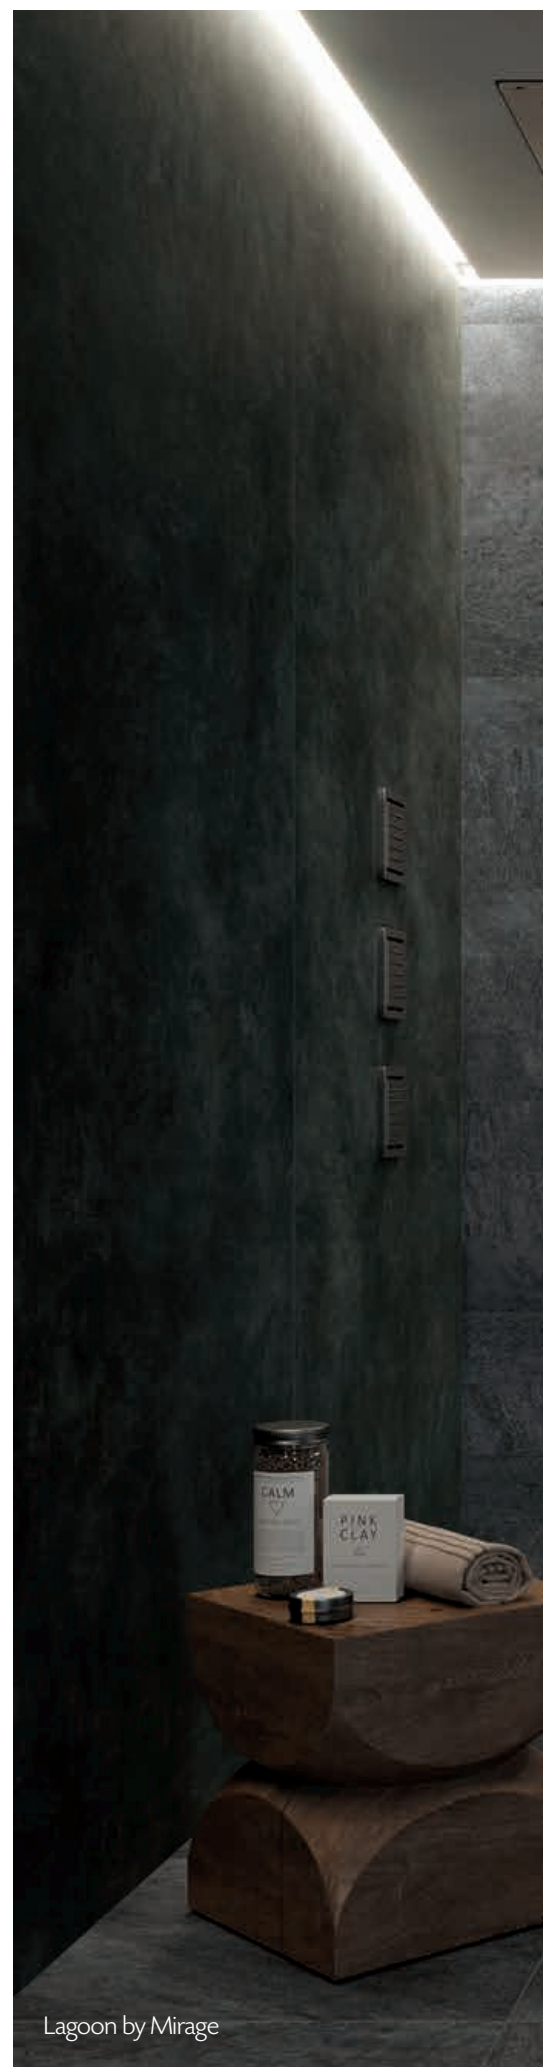

We can assist with the specification of tiles based on individual project requirements and have particular expertise in specifying for residential developments, the hotel and leisure industry, retail projects, schools & colleges, healthcare and nursing homes. We work closely with clients to propose the products most suitable to their needs while meeting their budget requirements. You can rely on our expert team to provide ongoing site support at every stage of the process.

COMMERCIAL SERVICES

- Commercial Customer Support Team including a dedicated account manager and commercial administrator
- On-site consultations
- 25 year system guarantee on combined tile & BAL adhesive installations
- Guarantee on extended spare part availability from our trusted manufacturers
- Nationwide next day delivery
- Bathroom design service using DreamSpace design software
- Expertise at sourcing specialised product or spares
- Stock management service as stock can be held in our central warehouse to be drawn down as required

TECHNICAL ADVICE & GUIDANCE

- Expertise on building regulations and standards
- Value engineered option on any tile or ware specification
- Assistance and recommendations for tile and sanitary ware
- Full technical specification and estimation service
- Practical knowledge, on-site advice and training on tile installations
- Guidance on tile maintenance and cleaning, surface hardness, slip resistance etc
- CPD training offering solutions to the various challenges in tiling
- Technical advice on fixing to various background substrates, movement profiles, structural joints etc
- After sales service and support

COMMERCIAL TEAM

Jason O'Connor - National Sales Manager

Jason O'Connor is the National Sales Manager with Tubs & Tiles Commercial having worked with the company for over 21 years. Jason specialises in commercial sales and specification for many national hotel and retail groups and has a wealth of experience working on key projects with his clients.

Email: jason.oconnor@heatmerchants.ie
Mobile: 087 684 5640

Mark McLoughlin - Business Development Manager Midlands & West

Having graduated from University of Limerick, Mark joined Tubs & Tiles in 2004 and in 2007 Mark began working with commercial clients in the West & Midlands. He has been involved in numerous commercial projects across all sectors including multi-dwelling, hospitality and healthcare with notable projects including Centreparks, Aikens Village (Stepaside), Hollywoodrath D15, Connolly Hospital and Galmount Hotel.

Email: mark.mcloughlin@tubstiles.ie
Mobile: 086 040 2068

Joe Murphy - Business Development Manager Cork & South

Since graduating from UCC with a BA Degree Joe worked in the construction industry for over 30 years. He has over 15 years experience in the Tile & Bathroom industry and is now working with Tubs & Tiles based in their flagship showroom in Eastgate Retail Park in Cork. Joe will be working with architects and interior designers in the south of the country to offer expert advice for any commercial project.

Email: Joe.murphy@tubstiles.ie
Mobile: 086 380 8785

Áine Williams - Business Development Manager Dublin

Áine joined the Tubs & Tiles team in 2021 and will work in the Dublin commercial market to bring her passion for quality products, beautiful design and functional excellence to clients while maintaining outstanding support service. Áine is qualified in both business and interior design to ensure she has an in depth understanding of client needs. Áine has over 20 years experience in Retail & Commercial sales where she has worked closely with builders, developers, designers and architects.

Email: aine.williams@tubstiles.ie
Mobile: 086 0788248

Carolina Beacon - Interior Designer

Carolina achieved a Bachelor Degree in Architecture and gained 11 years of experience working on a variety of domestic and commercial projects, extensions and renovations in Argentina. An internship in Italy with Architect Pietro Carlo Pellegrini provided insight into Italian design, materials and culture. Carolina joined Tubs & Tiles in 2018 and now provides complete design and advice service. 'I am passionate about design, art and photography and always looking to combine logic and aesthetics to create spaces that are both functional and beautiful'.

COMMERCIAL TILES

Tubs & Tiles is Ireland's largest importer of tiles sourcing only the finest quality tiles, exclusively from trusted manufacturers in Spain and Italy. Our commercial team can also source tiles to match the specific needs of any projects.

Mirage & Ragno are industry leaders providing exceptional design and a wide variety of styles and finishes, producing tiles from superior quality materials using the highest technical standards.

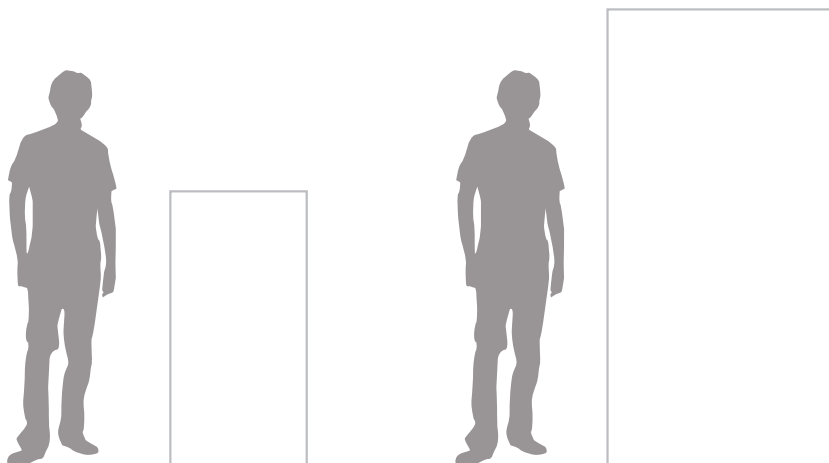

Jewels marble & Glocal concrete look porcelain by Mirage

SLAB LARGE FORMAT TILES

Tile slabs beautifully showcase the veining and patterns you would find in marble, the nuances of stone and the distinct properties of concrete to create a dramatic finish for both commercial and domestic interior design. The large sizes can offer a seamless transition between walls and floors and lend a visual continuity to any surface. As there will be fewer grout lines and the tiles can be fitted with a minimum gap of just 1mm any lines will be less perceptible contributing to the streamlined aesthetic.

Mirage have over 60 colour options in concrete resin, marble, metal and stone effect. Many of these are available in a range of sizes with a thickness of 6, 9, 12 and 20mm to suit a variety of applications from floors and wall cladding, counter tops in kitchens and bathrooms, shower trays, shelves, benches, furniture and much more.

Slab Sizes Available 120x120, 160x160, 120x240, 120x278, 160x320cm

SLIP RESISTANT TILES

Tiles with slip resistance are required for commercial projects and outdoor tiles and are also suitable for areas of the home where wet floors may pose a safety risk. There are several types of slip resistance tests and rating with details below and the experienced sales team will be able to advise you on the best options for your needs.

SLIP RESISTANT 'R' RATING

'R' value indicate the level of slip resistance of a tile. It stands for 'ramp test'. This 'R' value ranges from R9, which has a small degree of slip resistance, up to R13, which is the highest slip resistance.

R9, R10 and R11 Slip Stop are suitable for walkways, halls, conservatories, kitchens and bathrooms. A minimum rating of R10 is required for use in wetrooms but we highly recommend R11 rated tiles.

R11 SLIP STOP SMOOTH

When wet the R11 Slip Stop Smooth surface combines the performance of an R11 anti slip tile with a soft, smooth texture which is easy to clean and maintain.

BAREFOOT

Barefoot classification of floors looks at the slip resistance of tiles tested on an inclined surface with a pre-determined slope angle and they are then classified according to rating groups A, B and C. Barefoot "Class A" are suitable for barefoot walkways, mainly dry areas; "Class B" are suitable for showers, pool surrounds and "Class C" are suitable for steps into water and walk-through pools or similar. Class C is the highest anti slip rating.

STEPWISE TECHNOLOGY

The tiles produced using this new technology have a high degree of slip resistance giving you a surface which is soft to the touch and easy to clean since it has no superficial roughness. Stepwise is applied to the body of the tile prior to it being glazed and fired rather than to the surface of the tile which assists and enhances the final look, surface finish and slip resistant nature of the tile.

PENDULUM TEST VALUE PTV

This test measures dynamic coefficient of friction (CoF) which is designed to replicate a pedestrian heel strike, the point at which most slips occur. It can be used to accurately test the slip potential on clean and dry or contaminated floors. Higher PTV ratings may be required if walking on a non-level surface, a surface where pedestrians turn or otherwise higher risk surface, for example stairs, wet areas, swimming pools or sporting areas.

PTV slip probabilities if straight walking on a horizontal surface are

- PTV of 20 indicates a 1 in 2 probability of a slip
- PTV of 24 indicates a 1 in 20 probability of a slip
- PTV of 27 indicates a 1 in 200 probability of a slip
- PTV of 36 indicates a 1 in 1 million probability of a slip

MIRAGE[®]

Lemmy metallic look porcelain by Mirage

tubs&tiles
commercial

For over 40 years, Mirage has been designing and manufacturing porcelain floor and wall coverings for commercial, public and residential areas supplying more than 160 countries. Mirage leads the way in design with porcelain, merging technical and aesthetic quality to meet the needs of designers and architects around the world. Mirage Engineering division provide technical support in all project phases.

Mirage porcelain stoneware is made using innovative technology which results in slabs with exceptional design features, capable of meeting the demanding criteria of modern architecture, combining looks with technology-enhanced performance.

Ragno has been producing high quality wall and floor tiles in Italy's renowned ceramics district since its foundation in 1949. Since its inception Ragno has invested in exclusive technology and production techniques to become one of Italy's largest tile manufacturer with sales in over 170 countries.

Ragno offers solutions with a highly original look that respond to the latest needs in contemporary design, with a wide range of beautiful tiles that lead interior design trends while also delivering the finest product quality. Ragno is a fine example of why Italian style is respected all over the world.

RECEPTION & LOBBY AREAS

Technical performance, regulatory compliance and exceptional durability are essential in public spaces and with the superior design and production techniques of Italy's leading tile manufacturers there is no compromise on design choice and aesthetics.

Mirage and Ragno offer unrivaled options which will be sure to make a striking first impression.
